Traveling

PROFILE

I am a highly skilled and versatile full-stack developer with a passion for crafting innovative and user-centric web applications. With expertise in both frontend and backend technologies, I bring a proven track record of delivering seamless digital experiences. My proficiency in coding, problem-solving, and collaborative teamwork enables me to create robust and scalable solutions that drive business success

WORK EXPERIENCE

Front-end developer

Lanticus PVT LTD   January 01, 2022 - May 29, 2022

- Transforming Figma designs into pixel-perfect, responsive user interfaces that adapt seamlessly across devices.
- Created dynamic and visually appealing websites with Wordpress

Full Stack Developer

Codeexperts   June 20, 2022 - Present

- Specialized in backend development using Node.js (Express.js and Nest.js), with skills in AWS S3 bucket file upload, JWT authorization, PostgreSQL databases, and SMTP email handling through Nodemailer and SendGrid. My expertise enables me to create secure, scalable APIs and manage file uploads, email communication, and one-time password verification efficiently
- Skilled in creating pixel-perfect layouts, utilizing Tailwind CSS, Material UI, and React.js. I excel in state management with Context API and Redux, have experience with third-party API integration, including Stripe for payments, and can handle both client-side and server-side rendering with Next.js.

EDUCATION

Bachelors in Computer Science   2017 - 2021

- I pursued my computer science studies from COMSATS Wah, an experience that significantly contributed to my professional growth

FSC - Model Science College Rawlakot   2014 - 2016
